

Title: State of the Art in Enclosure Technologies and Integrated Systems for 50% Energy Savings in Existing Commercial Buildings

Report Date: March 2012

Report Author(s): Vivian Loftness, Azizan Aziz, Kee Poh Lam, Steve Lee Erica Cochran, Jihyun Park, Rohini Srivastava

CBEI was referred to as the Greater Philadelphia Innovation Cluster (GPIC) HUB at the time this report was developed.

Report Abstract

CBEI facilitated integrated visioning, expert workshops and design charettes for Building 661, which contributed to the development of a report on enclosure technologies with an emphasis on engaging the building systems and systems integration critical to high performance retrofits. The report is focused on typical (older) small commercial buildings.
